Wherever your organization is in its D&I journey, the Illinois Diversity Council can provide support in areas of education, best practices, networking, and practical application of D&I in the workplace. As a council, we serve as a community based resource group bringing individual and corporate members together championing diversity and inclusion at a local level.

With a specific focus on D&I, we bring the short and informative education seminars, a networking environment and communication on how to bring awareness and manifest D&I within the workplace. We build communities through our events and activities, provided by the passion for diversity among members of the council.
